

WORLD OF RADIO #1262, produced February 2, 2005 by Glenn Hauser
[for full credits listen to the program or consult DXLD]

*Standard disclaimer

- *The old KHJ 930 Los Angeles is imitated by a low-power FM in Oregon, and now by a station in American Samoa, KKHJ 93.1, known as 93-KHJ, and webcasts via <http://www.khjrado.com> especially ``Samoan Sunrise`` at 1700-2000 UT; covers almost all of Tutuila
- *IBB Tinian relay on 7235 put out spurs all over the 41m band, every 14.8 kHz until 1400
- *Bangladesh surprisingly well heard in Pennsylvania, English at 1230-1300 on 7185
- *Rainbow FM, from India to Andamans on 11585, plays American music from rock to heavy metal to pop and ballads; unique jingle at 1230 to the Doobie Brothers tune ``Listen to the Music``; why was this foreign music network so urgently needed by the Andamans and Nicobars that AIR had to start relaying it on SW?
- *Station on 7460 at 0230-0315 is not Sahara, but the Baha'i station from Moldova to Iran, Radio Payam-e Doost
- *Less than two months left for Israeli SW unless reprieved again. Revised sked shows English: 0430-0445 on 6280 7545 17600; 1030-1045 15640 17535; 1830-1845 9390 11585 11605; 2000-2025 6280 9390 15615; but 6280 normally only in winter, maybe changing in Feb
- *R. Bulgaria thought I said Rai external from Italy had closed down completely; European monitors reconfirm it still on air, including English to Africa at 2025 on 6040, 11880, but poor even in Europe
- *New sharetime in Paris on 1080 to start Feb 7, from 0600 UT, Radio de la Mer in the daytime; Paris Live Radio, in English, nights
- *R. Vaticana not only on 1530 from Italy but now relayed from Monaco (actually France) 1810-1940 on 702, and 1730-1940 on 1467, but all suffer from weak signals or interference
- *John Babbis compiled program schedule of Voice of Greece, titles translated to English in DXLD 5-018; frequency schedule in 5-020
- *World Music Radio, Denmark, missing the weekends of Jan 15-16, 22-23
- *Reading International Radio Group meeting Sat Feb 5 at International Solidarity Centre, 35-39 London St., from 1400; topics include interval signal recordings, British Columbia. Everyone welcome; more info from Mike Barraclough, 01462 643899 or mikewb @ dircon.co.uk
- *Wales Radio International still missing from scheduled transmissions via Austria, Fri 2130-2200 on 7110; to North America, UT Sat 0300 on 6005 clashes with BBC Ascension; at least we can hear WRI via WRN, and archive
- *Chris Greenway back in Nairobi for BBC Monitoring, and reports: Djibouti still not back on SW 4780, but maybe in March
- *R. Peace, Sudan, 4750, until 1745* stronger than before but only a few kW, unseems relay as previously reported from Michigan at 0330. Jari Savolainen in Finland finds it always weak at 1600; WRTH 2005 says they will add another transmitter on 5895 in Nuba Mountains

- *V. of New Sudan, proposed on 9310 and 9485, not heard yet either
- *SAF station from Eritrea on 6985 no longer heard; was part of peace accord, but V. of Sudan, 8000 from Eritrea still heard at 1530-1600; by NDA, not part of accord
- *R. Africa No. 2, Equatorial Guinea, 15190, erratic, as early as 0615, and from 1430, but not daily. Xmas program a month late, tape hangups; strength varied wildly caused by power variations. Yet to be heard in OK, fine with me so no interference to BBC Antigua; not heard Sat 1700, but service may be weekdays only, with R. East Africa on different frequency weekends
- *VOA added new Botswana frequency, 4930, mostly in English 0300-0630, 1600-1700, 1800-2200, and Zimbabwe service 1700-1800; confirmed promptly in Finland from Feb 1, and via longpath in Washington at 1630

- *La Voz de tu Conciencia, 6010v in Colombia, also on second frequency 5910v, relaying Marfil Estereo 88.8 FM, Puerro Lleras since Jan 30; het because it's on 5910.39; we heard around 0600 with 88.8 FM ID; and in Venezuela at 1205, not parallel on two frequencies; but they mix, on 5810.75 -- formula 2A minus B so probably another around 6110
